

This is How it Works...

 Your order is based on the number of diapers you **ORDER**, not the number of diapers you **USE**.

The quantity of soiled diapers picked up last week will be the number of this week's delivery.

Suppose an order was placed for 80 diapers per week...

I want 70 diapers a week, please.

Yes Mrs. Mom, 70 diapers a week, Thank You.

We immediately set aside a 2-week supply for Mrs. Mom.

2 WEEKS SUPPLY OR

$70 + 70 \rightarrow 140$

{ Mrs. Mom }

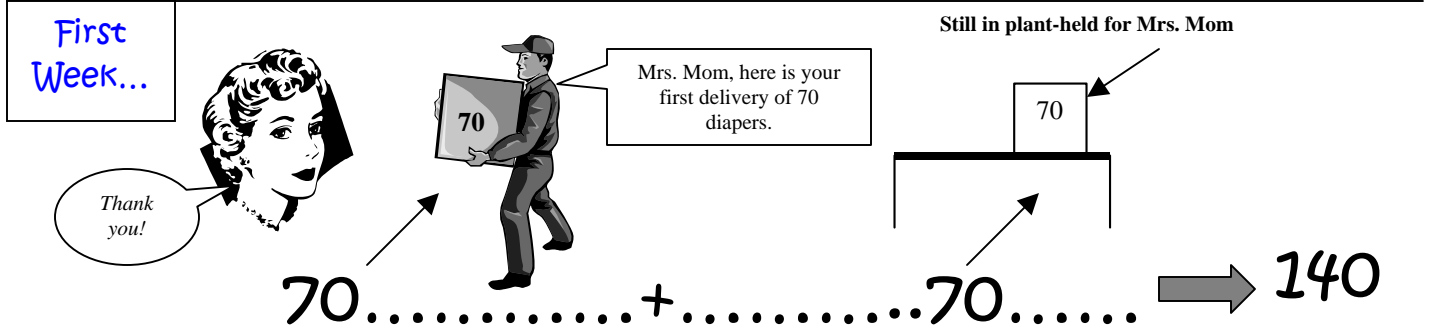

First Week...

Thank you!

Mrs. Mom, here is your first delivery of 70 diapers.

Still in plant-held for Mrs. Mom

$70 \dots + \dots 70 \dots \rightarrow 140$

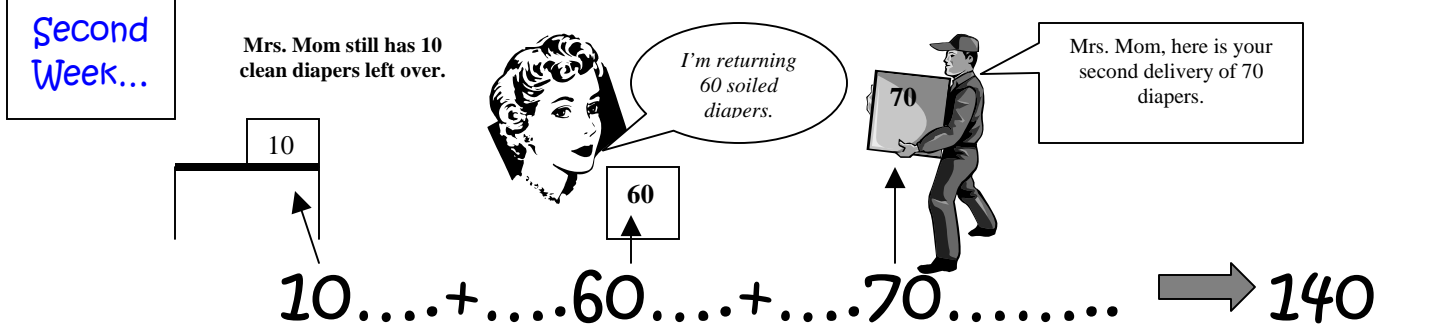

Second Week...

Mrs. Mom still has 10 clean diapers left over.

I'm returning 60 soiled diapers.

Mrs. Mom, here is your second delivery of 70 diapers.

$10 \dots + \dots 60 \dots + \dots 70 \dots \rightarrow 140$

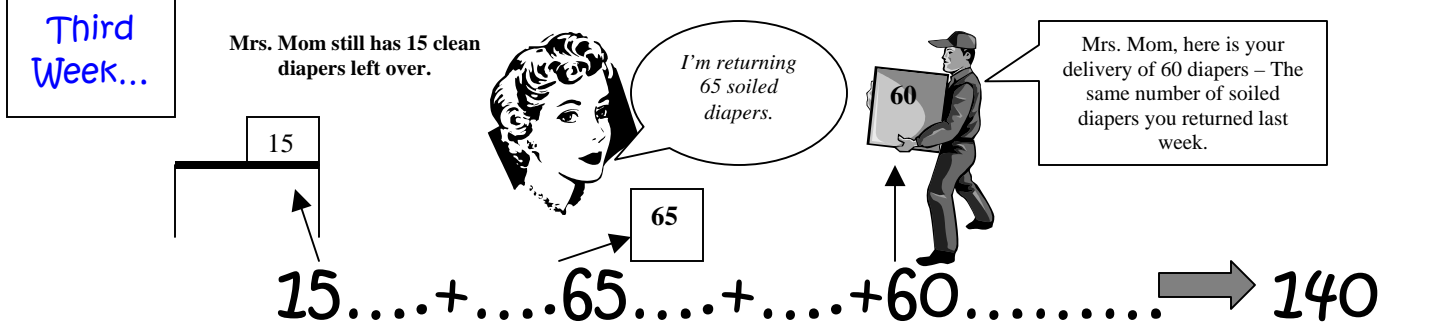

Third Week...

Mrs. Mom still has 15 clean diapers left over.

I'm returning 65 soiled diapers.

Mrs. Mom, here is your delivery of 60 diapers – The same number of soiled diapers you returned last week.

$15 \dots + \dots 65 \dots + \dots 60 \dots \rightarrow 140$

So Remember...

The diapers you have on hand, plus the soiled diapers you return, plus the clean diapers being delivered **WILL ALWAYS EQUAL** twice the number of your weekly order. If you regularly have extra diapers left over each week, call the office at least two days in advance and reduce your order and cost. Please order in multiples of 10 diapers.
