

# Angel Wing Fold

This fold can be used with any size of our pre-folded diapers. It provides excellent absorbency and a trim fit.

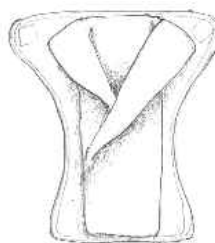

1. Fold a small portion of the diaper up on one end.

2. Fold the sides of the diaper in on themselves over the center panel to form a pad.

3. Unfold the sides at the top a bit to form 'wings'.

4. Place folded diaper in center of diaper cover.

5. Place the diaper cover and folded diaper under baby. Bring the cover up between baby's legs.

6. Close around baby and fasten for a perfect fit. After fastening, check to be sure that all of the diaper is tucked within the wrap to prevent moisture from traveling onto the baby's clothes.
